

## CURRICULUM VITAE

**First name:** Dušanka **Family name:** Perišić **Maiden name:** Kovačević

### Office address:

University of Novi Sad Faculty of Sciences and Mathematics  
Trg D. Obradovica 4, 21000 Novi Sad  
Serbia  
e-mail: [dusanka@im.ns.ac.yu](mailto:dusanka@im.ns.ac.yu)  
phone: +381 21 485 28 69  
fax: +381 21 350 458

### Personal Data

Data of birth: September 4, 1963.  
Place of birth: Novi Sad (Serbia)  
Marital status: Married (two children)  
Citizenship: Serbia

### Education

- 1992** Ph.D. in Mathematics, Faculty of Sciences, Novi Sad.  
title of thesis: “ *On Integral Transforms and Convolution Equations on the Spaces of Tempered Ultradistributions* “ advisor: S.Pilipovic
- November 1991** stay at the University of Seville (Spain), in the framework of scientific cooperation between Yugoslavia and Spain, supported by Spanish Government
- 1991** MS in Mathematics, Faculty of Sciences, Novi Sad advisor: S.Pilipovic
- 1989/90 summer semester** postgraduate studies at the Institute of Mathematics and Geometry, University of Innsbruck (Austria), fellowship granted by Austrian Government advisors: N.Ortner and M.Oberguggenberger
- 1986** BS in Mathematics, Faculty of Sciences, Novi Sad;

**Nationality** Republic of Serbia

### Professional experience

2006-	Vice dean of University of Novi Sad Faculty of Natural Sciences and Mathematics in charge of organization and finance
2003 -	Full professor of mathematics, University of Novi Sad Faculty of Natural Sciences and Mathematics, Novi Sad, Serbia
1997-2003	Associate professor of mathematics, University of Novi Sad Faculty of Natural Sciences and Mathematics, Novi Sad, Serbia
1993-1997	Assistant Professor, University of Novi Sad Faculty of Natural Sciences and Mathematics, Novi Sad, Serbia
1987-1997	Teaching Assistant, Faculty of Sciences, University of Novi Sad
1986-1987	Computer programmer in oil company Naftagas in Novi Sad

**Mathematical Specialization** Mathematical analysis, Harmonic analysis, Integral Transforms and Operators, Generalized functions theory, .
